Mr. Robert M. Richards  
Copley News Bureau  
National Press Building  
Washington D.C.

Dear Mr. Richards:

Many thanks for your kind phone message on May 16th  
which was passed on by Mr. Flannery.

A few days later I also received a letter from General  
Todd dated May 19th in which he kindly informed me about  
the forwarding both General Zako's and my letters to you.  
So I imagine you are in clear picture about our steps since  
the meeting on April 8th at Cockade Farms.

I received the other day a letter from General Zako  
who expressed again his anxiousness about a possible  
meeting with a representative of the CIA. According to him  
this would be needed owing to the many important factors  
and technical details which he cannot pass on in  
correspondence and which would be necessary for the detailed  
picture he wants to give to the CIA.

He also mentioned that recently he was contacted by an  
American gentleman who was interested in some confidential  
matters but gave no reference to the CIA or to any other  
detail which had pointed to that. So the General was very  
cautious and didn't go in details. He believes that the  
visitor was not your representative and would be very glad  
if in case of a possible contact a clear reference could be  
given. But his most sincere wish would be a personal report  
here in Washington D.C.

When Mr. Flannery passed on your message he told me that  
in case of any problem I should turn to you. Therefore I have  
decided to write this letter, hoping at the same time, that the  
fulfilment of General Zako's request will be possible and as  
a future result of that our organisation can give a real help  
in a small field of the enormous action-territory of the CIA.

I find it would be very important for General Zako and  
therefore he would be very grateful if you won't mind to let  
me know your opinion about his desire in a few words.

Sincerely yours,

20-61110
